

2017 OSA Publishing Catalog

2010 Massachusetts Ave., NW
Washington, DC 20036 USA
www.osa.org

Access the largest collection of peer-reviewed optics and photonics content via OSA Publishing's Digital Library—which contains more than 327,000 articles from 17 publications including OSA's flagship magazine, as well as the proceedings from more than 670 conferences.

► LEGACY.

For over 100 years, The Optical Society (OSA) has provided quality research, inspired interactions, and dedicated resources to its global network of optics and photonics experts.

► MOST ARTICLES AND CITATIONS.

OSA is proud that its collection of flagship, partnered, and co-published peer-reviewed journals continue to receive the most citations (40%) and publish the largest number of articles (35%) in the field of optics and photonics. (*2015 Journal Citation Reports*®, Thomson Reuters 2016)

► HIGHEST-QUALITY.

Scientists regularly turn to content from OSA Publishing to meet their research needs. A focus on high-quality and rigorous peer review are the cornerstone of our publishing program, and this is achieved via the ongoing guidance of OSA's expert editors and reviewers. Since 1917, OSA has been publishing seminal research in our field, which includes the findings of thought leaders, Nobel Prize winners, and inventors—all of whom have changed the technological landscape of optics and photonics.

► GLOBAL REACH.

Uniting over 270,000 professionals from 177 countries, OSA brings together the global optics and photonics community through its publishing program. Our articles come from authors around the world, and our content is widely available through a global network of institutions and OSA's robust Open Access program.

NEW PRODUCTS FOR 2017

Single title Digital Archives: OSA Publishing is now offering Digital Archive options for our core Journals which include *Applied Optics*, *Optics Letters*, the *Journal of the Optical Society of America A*, or the *Journal of the Optical Society of America B*. See page 16 for more details.

OSA Century of Optics: This eBook presents a selection of people, events, and technologies that were important to the evolution of optics, optical science, optical engineering, and photonics over the last 100 years. See page 11 for more details.

OPN Booklets: This series of four eBooklets tell the story, in photos and other visuals, of OSA's roots and evolution so far, and where the society—and the optics and photonics community that it serves—are headed as we embark on our next 100 years. See page 11 for more details.

PRODUCT CHANGES IN 2017

1. OSA's *Century of Optics* eBook and the OPN eBooklet series have been added to the Optics InfoBase Premium package.
2. The *Journal of Display Technology* will cease publishing effective 31 December 2016, yet backfile content will remain in select packages (see pages 12 and 14).
3. As previously communicated, effective 1 January 2017, access to OSA's journal backfile content will become a separate product. Subscribers to any of OSA's Print + Online Combination, E-Combination, and Optics InfoBase packages will continue to receive complimentary access to the full backfile product for each title in the package. Organizations subscribing to individual OSA titles will receive complimentary access to content from the last 10 years (2007–2017). Additionally, access to all backfile content is available via subscription or via the purchase of a single title Digital Archive. Additional details are available at osapublishing.org/library/2017backfilepolicy.

A complete listing of OSA Journals' Impact Factor and Eigenfactor rankings are at osapublishing.org/journalmetrics.cfm.

Advances in Optics and Photonics

Advances in Optics and Photonics (AOP) publishes comprehensive review articles and tutorials appropriate for students, researchers, faculty, business professionals, and engineers. This authoritative journal covers advances in optics and photonics from fundamental studies to engineering applications.

aop.osa.org

Applied Optics

Applied Optics (AO) publishes in-depth peer-reviewed articles related to applications-centered research in optical technology, lasers, photonics, environmental optics, sensing, and information processing. Articles concentrate on moving the potential of science and technology to the practical and include the development and performance of technologies when applying theories.

Biomedical Optics Express

Biomedical Optics Express (BOEx) is OSA's principal outlet for serving the biomedical optics community with rapid, Open-Access, peer-reviewed papers related to optics, photonics, and imaging in the life sciences. The Journal scope encompasses theoretical modeling and simulations, technology development, biomedical studies, and clinical applications.

Chinese Optics Letters

Chinese Optics Letters (COL) is one of the leading journals for optics in China. Published in English, the Journal promotes the generation, application, and archiving of knowledge in all fields of optics. COL is sponsored by the Chinese Optical Society and undertaken by the Shanghai Institute of Optics and Fine Mechanics (SIOM) at the Chinese Academy of Sciences. COL is distributed outside of China by OSA.

Optica

Optica is dedicated to the rapid dissemination of the highest impact results in all areas of optics and photonics. This online-only, Open-Access journal publishes original peer-reviewed research articles, letters, memoranda, and mini-reviews that appeal to a broad audience. A highly selective journal, *Optica* is a venue for authors to publish their most exciting work, be it theoretical or experimental, fundamental or applied.

Photonics Research

OSA and Chinese Laser Press co-publish this peer-reviewed, Open-Access, online-only journal reporting fundamental and applied research progress in optics and photonics. Topics include lasers, LEDs, and other light sources; fiber optics and optical communications; imaging, detectors, and sensors; novel materials and engineered structures; optical data storage and displays; plasmonics; quantum optics; diffractive optics and guided optics; medical optics and biophotonics; ultraviolet and x-rays; and terahertz technology.

eBooks

OSA offers three eBooks that cover the history and breadth of optics and photonics.

OSA Century of Optics

Presents a selection of people, events, and technologies that were important to the evolution of optics, optical science, optical engineering, and photonics.

\$99 ONLINE PDF

OPN Centennial Booklets

Four commemorative eBooklets tell OSA's story and where the society (as well as the optics and photonics field) is headed.

\$49 ONLINE PDF

Lasers

Anthony Seigman's gold-standard textbook on laser physics.

\$99 ONLINE PDF

ALL OSA PUBLISHING CONTENT

OSA offers two packages that include all journals and conference proceedings content as well as complimentary access to the extended backfiles for all titles: Optics InfoBase and Optics InfoBase Premium. The **Optics InfoBase** package provides access to all 16 journals; OSA's magazine, *Optics & Photonics News*; and the conference proceedings from all of OSA's Topical Meetings. The **Optics InfoBase Premium** package offers access to the same content and augments it with the valuable conference proceedings from all of OSA's major meetings (FIO, CLEO, OFC); unlimited access to OSA's Optics ImageBank, a searchable database with more than 780,000 journal images; and access to the eBook version of Anthony Seigman's *Lasers* textbook, OSA's *Century of Optics* eBook, and 4 OPN Centennial eBooklets.

E-COMBINATION PACKAGES

In addition to the complete online-only collection offered through our two Optics InfoBase Packages, OSA offers access to specific e-content via four combination packages.

The **E-Combination 1** package offers access to select journals, including OSA's core titles. The **E-Combination 2** package includes the same titles as E-Combination 1 but also includes access to OSA's Optics ImageBank, which includes more than 780,000 images from OSA's core journal titles.

Additionally, OSA now offers two additional electronic packages: **E-Combinations 3 and 4**. These products allow subscribers to create their own package by either choosing any 2 of OSA's core titles (as noted below) and then adding OSA's high-impact review journal, *Advances in Optics and Photonics* (AOP) for E-Combination 3, or any 3 core titles plus AOP for E-Combination 4.

DIGITAL ARCHIVE PRODUCTS

OSA Publishing's Digital Archive products provide you and your patrons with perpetual access to a wide variety of ground breaking optics and photonics research published over the last 100 years.

The **OSA Centennial Archive** package includes more than 256,000 journal and magazines articles as well as the conference proceedings from more than 640 meetings from 1917 to 2015. In short, it includes content published by OSA since the inception of its publishing program in 1917.

The **OSA Digital Archive 1** package includes access to content published from 1917 to 2005, which includes roughly 135,000 articles from OSA's core journals, magazine, and conference proceedings.

The **OSA Digital Archive 2** supplements the OSA Digital Archive 1, by providing perpetual access to an additional 123,000 journal, magazine and conference proceeding articles published between 2006 and 2015.

The chart below provides a more detailed view of the contents of each of the Digital Archive products described above:

Journal Titles	Digital Archive 1 covering content from 1917–2005	Digital Archive 2 covering content from 2006–2015	Centennial Archive covering content from 1917–2015

NEW DIGITAL ARCHIVES AND OTHER PRODUCTS

Individual Journal Archives

Starting in 2017, OSA will offer Digital Archives for some of its journals. You can now purchase perpetual access to the archives of *Applied Optics*, *Optics Letters*, the *Journal of the Optical Society of America A* (JOSA A) or *Journal of the Optical Society of America B* (JOSA B). Purchasing one or more of these individual journal Digital Archives ensures access to all the content in each journal from the first issue all the way to 2006.

JOSA (1917–1983) + JOSA A (1984–2006)

\$7,400

JOSA (1917–1983) + JOSA B (1984–2006)

\$7,400

Applied Optics (1962–2006)

\$11,500

Optics Letters (1977–2006)

\$4,800

Conference Proceedings Package

Subscribe to the proceedings to either the complete collection of OSA 670 meetings; the proceedings to just the major meetings (CLEO, FiO, OFC); or the proceedings to an individual meeting. Each conference included and the years of coverage can be found online at www.osapublishing.org/conferences.cfm.

FREQUENCY: **Over 30 new conferences to be added in 2017.**

PUBLISHER: **OSA**

ISSN: **2162-2701**

\$250–\$2,500 FORMAT VARIES DEPENDING ON THE PACKAGE

OSA Industry Development Associates (OIDA) Reports

OIDA produces market data reports on the current and future status of the industry and its various sectors. OIDA also creates roadmap reports that project the future of specific products and technology areas over a range of 1–10 years.

\$500–\$5,000 FOR EACH REPORT

AVAILABLE ON CD-ROM
